DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Mid 19th century Conowingo School No. 4 is on Old Conowingo Road just west of the intersection of Route 222. The structure faces north with the gable running north/south. The structure has been converted into a residence and many later changes have been made. The original frame school house was 1½ stories high 3 bays across by 3 bays deep. Later additions included a single story shed off the south end and a larger 2 story block and frame structure to the west. There is a poured concrete front porch across the main facade of the structure.

The main 3 bay by 3 bay block rests on an uncoursed stone foundation and is covered with novelty siding. The roof has a medium pitch and is sheathed with tin.

The main facade is 3 bays across with an entrance in the central bay. There is 6/6 sash plain surrounds on either side of the front door. The main door has been replaced, However, a 3 light transom is still found over the door. A round ventilator is found in the gable. The eaves are extended and the ~~rafters~~ rafters were left exposed.

The east side is 3 bays across with a later door cut between the first and second bay from the south. Detailing remains like the main facade.

The south end possesses the shed roof addition of late 19th or early 20th century date. The most recent addition is found on the west side and probably was built within the last 20 to 30 years.

The interior has been divided up and remodeled to suit as a residence.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

Any significance that remains lies with the fact that it appears on the 1877 Lake Atlas and can still be recognized as a school building.
